4. Recurrent sinusitis, sore throat, ear infections, or nasal obstruction

Please explain the condition thoroughly, providing dates, severity, current status, prescribed medications and their dosages and frequency, and your functional capacity and limitations.

Whenever I develop a cold, it is always accompanied by a sore throat that eventually turns into tonsillitis. This occurs about 3 times per year in spring and summer but rarely during the winter. It's difficult to treat the condition once it has worsened since I am allergic to penicillin. I treat it by using lozenges as soon as I develop the early symptoms and keep warm.

47. Professional counseling, treatment, or hospitalization for emotional problems

Please explain the condition thoroughly, providing dates, severity, current status, prescribed medications and their dosages and frequency, and your functional capacity and limitations.

I've attended a few counselling sessions at the University when I felt the weight of school was overwhelming and was just withdrawing from a lot of things I found joy in. This was in May 2022. After these sessions, I regained the charisma I needed and with the help of my bishop I felt the need to push even further. The counsellor was also impressed with my progress. There are no limitations over and above the problem I felt at the time.

Medications

4. Recurrent sinusitis, sore throat, ear infections, or nasal obstruction

Please explain the condition thoroughly, providing dates, severity, current status, prescribed medications and their dosages and frequency, and your functional capacity and limitations.

Whenever I develop a cold, it is always accompanied by a sore throat that eventually turns into tonsillitis. This occurs about 3 times per year in spring and summer but rarely during the winter. It's difficult to treat the condition once it has worsened since I am allergic to penicillin. I treat it by using lozenges as soon as I develop the early symptoms and keep warm.

47. Professional counseling, treatment, or hospitalization for emotional problems

Please explain the condition thoroughly, providing dates, severity, current status, prescribed medications and their dosages and frequency, and your functional capacity and limitations.

I've attended a few counselling sessions at the University when I felt the weight of school was overwhelming and was just withdrawing from a lot of things I found joy in. This was in May 2022. After these sessions, I regained the charisma I needed and with the help of my bishop I felt the need to push even further. The counsellor was also impressed with my progress. There are no limitations over and above the problem I felt at the time.

Instructions for Physicians Evaluating Missionary Candidates

Missionaries for The Church of Jesus Christ of Latter-day Saints serve in various environments and cultures throughout the world. They are normally expected to engage in missionary activities many hours per day, including walking many miles a day, six days a week. The rigors of a mission usually exacerbate any prior difficulties. Please use the following guidelines in examining the missionary candidate:

1. The Physician's Health Evaluation of Missionary Candidate form must be signed by a medical doctor (MD), doctor of osteopathy (DO), physician assistant (PA) or nurse practitioner (NP). An examination by any other practitioner is not acceptable.
2. Please perform a thorough physical examination to ensure that missionaries receive assignments in which they can succeed. It is unfortunate when a missionary must return home early because of problems that could have been avoided or stabilized before the mission.
3. Correct any problems such as plantar warts, flat feet, chronic headaches, or inguinal hernias before the missionary candidate leaves for his or her mission. Explain to the candidate any problems that do not need correcting, such as a deviated nasal septum, varicocele, pilonidal disease, and so on, in case a physician in his or her mission insists that such a condition must be surgically corrected.

4. Stabilize chronic problems such as asthma, diabetes, seizures, emotional disorders, irritable bowel, endometriosis, and so on. Carefully instruct the candidate on the treatment for these problems, and explain personal care under diverse circumstances. Also explain the importance of continuing to take any prescribed medications.
5. Do not sign the Physician's Health Evaluation of Missionary Candidate form without reviewing the Personal Health History of Missionary Candidate form with the candidate. Please comment on each abnormality listed by the candidate.
6. When a major illness, operation, injury, hospitalization, or prolonged treatment is mentioned, please obtain a summary report of the incident from the professional who treated the case whenever possible. This report should accompany the candidate's recommendation.
7. Obtain necessary consultations to clarify the candidate's ability to function in the mission field as well as his or her current physical and emotional status where advisable.
8. Complete all specific laboratory tests including TB testing (item #22) as indicated on the Physician's Health Evaluation for Prospective Missionary Form.
9. Please mark the appropriate box indicating the candidate's overall ability to function in the mission field on the "Assessment of Functional Ability and Need for Medications or Medical Care."

To the missionary candidate:

Please complete your dental examination early to allow plenty of time for all treatment, including active orthodontic treatment and wisdom teeth evaluation. Before your dental appointment, answer the dental history questions below, and read and sign the authorization statement. Notify your stake or district president if you are unable to schedule a dental exam. Missionaries and their families are responsible for the costs of any necessary dental work before and during your mission. Because you might not have access to dental care during your mission, please be honest with yourself and your dentist about any issues (or potential issues) with your teeth or jaw, including joint disorders or teeth grinding.

Dental History (to be filled out by missionary candidate)

Has all orthodontic treatment been completed? If yes, please bring an extra set of removable retainers with you to the mission field. ☐ Yes ☐ No ☐ Not applicable

Have your wisdom teeth been removed? (If not, discuss this with your dentist and have your wisdom teeth removed if there are any potential concerns. This care is not provided in the mission field.) ☐ Yes ☐ No

How often do you brush your teeth? How often do you floss your teeth?

Do you have any pain or bleeding in your mouth, teeth, gums, or jaw joints? If yes, explain. ☐ Yes ☐ No

To the examining dentist: Please be aware that this individual might serve in an area of the world (for 18–24 months) where there is little or no professional dental care available, and any dental care will be at his or her own expense. Failure to provide the needed care now could result in significant health issues during the mission and even the missionary's early return home.

Dental Evaluation (to be filled out by dentist)

Has the prospective missionary had a complete oral examination with bitewing radiographs within the last six months? ☐ Yes ☐ No

If the third molars have not been removed or are not erupted into proper alignment, has a panoramic or equivalent image suitable for evaluation of the third molars been taken in the last 6–12 months? ☐ Yes ☐ No ☐ Not applicable

Have all third molars that were likely to become problematic during the next two years been extracted? Any unerupted molars must show proper alignment and space to erupt free of distal impingement or will not likely erupt. ☐ Yes ☐ No ☐ Not applicable

Has all dental decay and gum infection been resolved? ☐ Yes ☐ No

Has all active orthodontic treatment been completed? Please verify that bonded retainers are properly attached. ☐ Yes ☐ No ☐ Not applicable

Is this individual practicing proper oral hygiene, including brushing and flossing? ☐ Yes ☐ No

Given that this individual might not have access to professional dental care (including exams and cleanings) for 18–24 months, do you believe that he or she will be free of dental problems for this period if proper oral hygiene is practiced? ☐ Yes ☐ No

Authorizations, Notices, and Releases of Information

I hereby authorize The Church of Jesus Christ of Latter-day Saints, its officers, leaders, employees, affiliated entities, and departments, including (as applicable) my mission leadership couple and my home unit priesthood leaders, such as the bishop and stake president, together with clerks and service mission leaders or coordinators who may assist my local priesthood leaders (collectively the "Church"), to process my personal and sensitive data for purposes relating to missionary service in the Church in accordance with the [Church's Global Privacy Notice](#) and these Privacy Agreements. (My mission leadership couple refers to the mission president and companion, historic site president and companion, temple president and matron, and/or visitor center director and companion who oversee me, depending on my mission assignment.)

This authorization includes the following understandings and consents:

1. The Church will have access to my personal and sensitive data, including sensitive data relating to my ethnic origin, religious beliefs, physical and emotional health, and any criminal history, for the purposes of evaluating my missionary recommendation, determining my missionary assignment if my recommendation is accepted, overseeing my mission, and responding to emergencies and other circumstances that might affect my missionary service. I consent that the Church may process my personal and sensitive data for these purposes.
2. I have informed my parents and/or caregivers that I will include some of their personal data in my missionary recommendation.
3. My Bishop and Stake President (or Branch President, District President and Mission President, as the case may be) will provide evaluations of my qualifications to serve as a missionary. I agree that these evaluations are related to determining my worthiness and capacity to serve as a missionary. I understand that these evaluations are strictly confidential and I hereby waive any right of access to these evaluations.
4. The provision of my personal data is necessary in order for the Church to process my missionary recommendation.
5. I authorize the transfer of my personal data, including sensitive data relating to my ethnic origin, religious beliefs, physical and emotional health, and any criminal history, to Church headquarters in the State of Utah, United States of America and to other countries with less stringent data protection laws than the country in which I reside. I understand and acknowledge that the transfer of this information is necessary for the Church to evaluate my recommendation to serve the Church as a missionary.
6. With the exception of ecclesiastical leaders' evaluations, I may access, upon my written request, the personal data I have provided in connection with this missionary recommendation and I may rectify any erroneous data.
7. I understand that the Church may have occasion to film or record me in connection with my missionary service. The Church also may have access to images and videos of me that I post on social media or on other public websites or apps while serving as a missionary. I authorize the Church to record or copy my name, voice, image, likeness, and performance in connection with my missionary service, and to use such recordings and copies in any way and for any purpose related to the Church's missionary activities (including to reproduce, distribute, publish, adapt, edit, display, translate, summarize, create derivative works from, and sublicense). I waive any right to inspect, approve, or be compensated for such recording and use.
8. If I drive or am a passenger in a Church vehicle, I authorize the Church to record telematics data, such as who is traveling, location, movements, speed, idle time, length of stops, miles driven, fuel usage, maintenance, seat belt use, acceleration, deceleration, rapid starts, hard turns, and accidents. Some vehicles may also record video. This data may be used as part of the Church's Driver Accountability Program to promote safety, respond to incidents, and protect vehicles, occupants, and others. [Telematics Tracking Policy for Church-Owned Vehicles](#)
9. I authorize the Church to share information about my missionary service at its discretion with governmental or similar organizations for limited statistical or reporting purposes. I also authorize the Church to verify my mission assignment(s) and my dates of service when contacted by third parties for post-mission employment verification, such as when the government or a private employer asks to verify when/where I served as a part of a background check.
10. If I am called to a service mission, I authorize the Church to share my personal and sensitive data (including my contact information, information pertaining to my physical and emotional health and capabilities, and information relating to the performance of my missionary service) with any charities or civic organizations where I am assigned to volunteer as reasonably necessary for the purpose of coordinating and managing my missionary service.
11. Upon completion of my mission, my general contact information may be included in a returned missionary directory

accessible to my former mission leadership couple(s) for the purpose of keeping us connected. I understand that I can opt out or limit how my contact information is shared by modifying my profile preferences as described in the [Church's Global Privacy Notice](#).

12. I understand that, while the Church tries hard to protect the confidentiality of my data, when I authorize my data to be shared under these Privacy Agreements the data may be shared via telephone, email, text message or other means that potentially could be intercepted or read by a third party.
13. The Church will retain my personal data during my mission. Although some data will be destroyed after completion of my mission, other data may be retained indefinitely as part of the historical or other records of the Church. Some data (such as vehicle telematics information) will be anonymized after my personal data is no longer needed. I authorize the Church to use and retain my data in its discretion.
14. Should I have questions concerning the protection of my personal data or the security of personal data processed by the Church, I have been advised that I may communicate my questions to the Church's representative for data privacy at dataprivacyofficer@churchofjesuschrist.org

Missionary Funds

I understand that all donations to the Church's missionary funds become the property of the Church to be used at the Church's sole discretion in its missionary program and are not refundable.

Electronic Devices

The Church allows the use of technology to help me fulfill my missionary purpose. The Church may provide a device to me or I may be required to purchase a Church-approved device, but regardless of ownership I recognize that using technology is a privilege that can be revoked. I hereby accept the responsibility to use technology only in ways that are consistent with my missionary calling and not in any way that is obscene, defamatory, illegal, or hateful or that infringes the rights of others. I understand that as a missionary I may have access to personal and private information of others, including non-members and members of the Church. I agree to keep confidential all personal information contained in systems and devices to which I may have access, and commit not to share it with anyone who is not authorized.

To ensure I am using the device appropriately, I will allow the Church to inspect and monitor my use at any time. This may include: (i) tracking the movement and the location of devices provided to me; (ii) monitoring my communications, internet searches, or downloads; (iii) remotely wiping the device of all data; or (iv) locking the device to prevent access by unauthorized persons. I understand that if a device is wiped I may permanently lose all data that has not been backed up. I will have no expectation of privacy when using computers or electronic devices as a missionary. I will obey all mission rules and instructions regarding use of technology, including the use of security precautions like passwords and encryption. I agree to report a lost or stolen device to the Church immediately, to install and use only authorized software and applications, and to abide by the terms of any licence agreements to which Church devices may be subject.

Insurance, Liability, and Medical Expense Acknowledgement

The Church Handbook for Stake Presidents and Bishops indicates that all missionaries are strongly encouraged to maintain their existing medical insurance during their missions. For proselyting missionaries, maintaining existing insurance coverage conserves Church funds and helps missionaries avoid having to prove insurability after their missions. Maintaining coverage helps provide protection for past chronic or congenital problems and post-mission medical needs. For service missionaries, maintaining medical, automotive, and general liability coverages helps the missionary plan for the unexpected, since missionaries called to service missions are solely responsible for all of their medical, dental, and liability expenses during their mission.

Acknowledgement:

I understand that if I am called to a service mission, I am solely responsible for all of my medical, dental, and liability expenses.

For proselyting missionaries, I understand that if I become sick or injured during my mission, the Church may provide initial payments for my medical expenses except for preexisting conditions. Payments in the United States will be made through Missionary Medical, a Department of Deseret Mutual Benefit Administrators (DMBA), a not-for-profit Church affiliated entity. Payments outside the United States will be made through Aetna International and its network partners.

These payments are made from the general funds of the Church and are gratuitous and voluntary in nature. Payments are not made from a Church insurance policy and are not intended to replace my personal health insurance.

Likewise, if I am involved in an accident while driving a Church-owned vehicle for which the Church carries insurance, but the damages attributable to me exceed the coverage limits, the Church may seek contribution from any personal or family liability insurance policy available to me, including but not limited to automobile, homeowner's, or general liability policies.

In either case, I understand that claims will be filed with my insurance carrier. I agree to support all recovery efforts (including assisting in claims filing and reimbursement procedures) in the event the Church makes initial payment for medical expenses. I agree to support efforts by Missionary Medical to coordinate care directly with my parents (when authorized for disclosure), healthcare providers, and my insurance carrier.

I understand that if I am involved in an accident that the Church neither encourages nor discourages legal action from potentially

liable or responsible third parties. I agree to reimburse the Church for expenses paid on my behalf in the event a settlement is reached or when a liable party makes payments.

When collected, the provision of national ID, such as Social Security Number, Individual Taxpayer Identification Number, etc. is required for federal reporting requirements or for securing health insurance coverage while serving as a missionary, and will be shared on a need-to-know basis with Missionary Medical (DMBA) and affiliated/partner insurance organizations for the purposes described.

Service missionaries are responsible for their own healthcare and for all health and dental insurance and expenses. This Medical Privacy Notice will apply only if I am called to serve a proselyting mission. For more information about how the Church protects the health information of service missionaries, please see the Church's Global Data Privacy Policy.

Deseret Mutual Benefit Administrators (DMBA), through its Missionary Medical Department, helps to coordinate and administer missionary health care for proselyting missionaries. DMBA is a not-for-profit Church-affiliated entity that has been assigned by the Church's Missionary Department. The United States government has enacted privacy laws and regulations with which DMBA must comply. One of the requirements is to provide you with a *Notice of Privacy Practices* explaining how your health information will be used and disclosed.

1. Understanding Your Health Record/Information

Each time you visit a hospital, physician, or other health-care provider, a record of your visit is made. Typically, this record contains your symptoms, examination and test results, diagnoses, treatment, and a plan for future care or treatment. It may also contain correspondence and other administrative documents.

Protected health information (or "PHI") is any personally identifying information which when linked to health data could be used to identify an individual. This information may be stored or transmitted in any form (for example, paper, electronic, verbal, etc.). All of this information, often referred to as your medical records, serve as a:

- Basis for planning your care and treatment
- Means of communication among the many health professionals involved in your care
- Legal document describing the care you received
- Means by which you or a third-party payer can verify that services billed were actually provided
- Tool in educating health professionals
- Source of data for medical research
- Source of information for public health officials charged with improving the health of the nation
- Tool to assess and monitor the health care being provided and the outcomes achieved

2. Your Health information Rights

With respect to that portion of your health record held by Deseret Mutual, you have the right to:

- Inspect and obtain a copy of your medical record
- Amend your medical record
- Request a restriction on certain uses and disclosures of your PHI
- Obtain an accounting of disclosures of your PHI (other than for purposes of treatment, payment, and health care operations)
- Request communications of your PHI by alternative means or at alternative locations
- Revoke your authorization to use or disclose PHI except to the extent that action has already been taken

3. Our Responsibilities

Deseret Mutual is required to:

- Maintain the privacy of your PHI
- Provide you with notice of our legal duties and privacy practices regarding information we collect and maintain about you
- Abide by the terms of this notice
- Notify you if we are unable to agree to a requested restriction
- Accommodate reasonable requests you may have to communicate health information by alternative means or at alternative locations

We will not use or disclose your PHI without your authorization, except for treatment, payment or health-care operations, or as provided by law.

We reserve the right to change our practices and make the new provisions effective for all PHI we maintain. If we do so, we will notify you of the changes in writing.

4. For More Information or to Report a Problem

If you have any questions or if you would like additional information, you may contact Deseret Mutual's Compliance Officer by telephone (1-801-578-5600 or 1-800-777-3622), by mail (PO Box 45730, Salt Lake City, UT 84145) or by fax (1-801-578-5906).

If you believe your privacy rights have been violated, you can file a complaint with Deseret Mutual's Compliance Officer, or with the United States Department of Health and Human Services, Office for Civil Rights (OCR). Complaints must be in writing and can be filed either by mail or electronically. OCR will provide further information on its Web site about how to file a complaint (www.hhs.gov/ocr/hipaa). Please note that there will be no retaliation for filing a complaint.

5. Uses or Disclosures for Treatment, Payment, and Health Care Operations

- Treatment, Payment, and Health Operations: We may use your PHI for treatment, payment, and health care operations. For example, treatment information obtained by a nurse, physician, or other member of your health care team will be recorded in your record and used to determine the course of treatment that should work best for you. For payment, a bill may be sent to you or a third party payer. For health care operations, we may use your health care information to study ways to improve utilization or reduce health care costs.

6. Uses or Disclosures Permitted or Required by Law

- United States Food and Drug Administration (FDA): We may disclose to the FDA PHI relative to adverse events with respect to food, supplements, product and product defects, or post-marketing surveillance information to enable product recalls, repairs, or replacement.
- Public Health: As required by law, we may disclose your PHI to public health or legal authorities charged with preventing or controlling disease, injury, or disability.
- Correctional Institution: If you become an inmate of a correctional institution, we may disclose to the institution or agents thereof PHI necessary for your health and for the health and safety of others.
- Law Enforcement or Judicial Proceedings: We may disclose certain PHI for law enforcement purposes as required by law or in response to valid subpoena.
